Will thou be so kind as hand over these various sums to the proper recipients - Acknowledge receipt at early convenience - and with them in handing the Liberator subscriptions, mention that Mrs Scott would like her copy sent to 1 St Vincent St. Edinburgh - as there has been some change & she does not get it direct - she once lived at Circus Place & for a time at Liverpool, but has returned the above address. - I hope I am not giving thee too much trouble. - Thou mayst be sure we have been watching with no common interest the history of noble, but misled man, John Brown - We had latterly in the reprieve more full of hope that some way of escape might yet be found - when on the 16th, came the news that his precious life had been taken two weeks before. - His death seems to have caused great excitement every where, nothing that has taken place in America seems to have had so much effect here as this murder of a man whom all must admire, & whose bearing throughout has been worthy of a martyr. I send thee two Edinburgh papers that thee may see something of the feeling here. I think the editorial in the S. Post, on the case of Sarah Parker Remond & her sister's exclusion from the Cunard cabin, ought not be unfelly quoted in your papers - S.P. Post etc. - both the papers sent & the article on Hospitality Henry Vincent is also very good. We, in Edinr., are much interested in Dr. Chivers - I mean the Ministers are moved & are taking the subject up warmly - We are very glad anything has been done & more than. This was a good & spirited day meeting

yesterday - addressed by Dr. Candlish, Dr. Guthrie, Dr. Anderson, Wm. Reid & other eminent ministers. The Lord Provost in the chair. The resolutions previously adopted by Dr. Cheever's co- -ngn were adopted by the meeting & the speeches were be- -lieved to be unpol- -ished, especially when we consider the audience these men's voices have power to reach. It is a great shame that there has been no earlier voice from them, but we shall be glad if now they turn over a new leaf & look into the subject honestly & earnestly, & come forth & declare anti-slavery principles, as they ought to be declared, in the city where the doctrine of immediate emancipation was first publicly enunciated. — Collections are to be taken up for the help of Dr. Cheever in several of the city churches. I hope the movement will be followed throughout the country. We are always very glad of any occasion to bring forward the cause before the country in an unobjectionable manner. In this case we notice a striking absence of the main ammition of Julia & others of her stamp — that is: an abuse of the true abolitionists. — Dr. Candlish has been studying the Standard & pushes his mind has seem by it a little enlightened, perhaps he is becoming so imbued with a hatred of slavery as he gets to know it more, that he cannot say a word against the slave's best friends, whatever their heresies may be. — I cannot tell but in the mean time I am glad these pro-slavery proceedings are avoided. We have had a report of Douglas' meeting at Halifax — in which he said nothing injurious. — I hope he will try & avoid all such lowering proceedings. — I think that probably in the present state of this country he may do large meetings & may give much information on the nature of slavery. — In so far, he may do good. — We have had no communication with him, & shall endeavour to pursue the course that seems best to us. I do not think we can stereotype that which will answer for all. — Dear Mary Estlin has written
